Anti-skid flooring

Water channelling floor gutters

Hull Design

Sleek by design, engineered for performance.

The hydrodynamic & compact 20.3 ft hull built with composite lightweight and ultra durable fiberglass enhances effortless maneuverability and fuel efficiency. Agile enough to handle well, spacious enough to entertain, creating a striking balance of elegance and efficiency.

Swim Deck

Designed for effortless access to the water, the swim deck combines anti-skid flooring, a push-button retractable swim ladder, freshwater shower, underwater lights and a secure grab handle, delivering a refined, comfortable, and confident boarding experience.

Push button telescopic swim ladder

Engineered for effortless water access, the push-button telescopic swim ladder deploys with ease, offering secure and comfortable boarding while complementing the BR2100's refined swim deck.

Fresh water shower

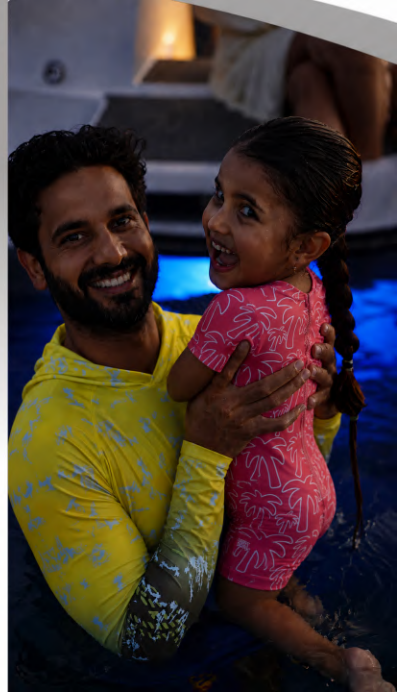

Integrated into the swim deck experience, the freshwater shower offers convenient rinse-off functionality, bringing added comfort and practicality to every return from the water.

BR2100

Lounge & Bow Seating

Crafted with premium marine-grade upholstery, the lounge and bow seating create a refined and inviting space for relaxed cruising, social moments, and lasting comfort.

The cockpit lounge seating and raised sunbed are thoughtfully configured to encourage conversation and shared experiences, combining ergonomic support with a spacious and welcoming layout.

Designed for open-water enjoyment,
the twin bow lounges offer elevated comfort
and panoramic views — ideal for conversation,
cruising, and chasing horizons.

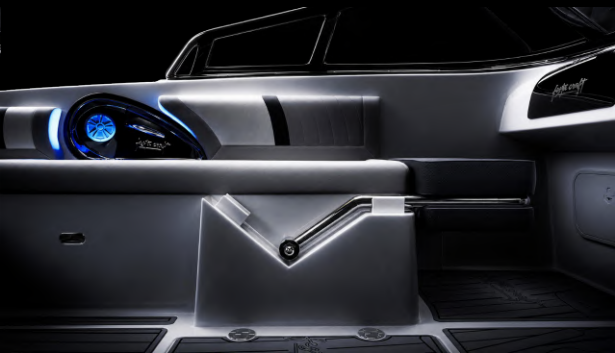

Captain's seating

The captain's experience is prioritized with a high-performance seat that offers a 360-degree swivel, hydraulic lift, and forward and back adjustments, complete with a retractable bolster for optimal support.

Port side collapsible seat

Flexible by design, the collapsible port-side seating adapts effortlessly to movement, comfort, and social interaction onboard.

Storage

Integrated storage compartments throughout the vessel provide dedicated space for equipment, essentials, and personal belongings, keeping the deck organised and uncluttered and while still being easily accessible.

Navigation & Machinery

Performance meets precision. Engineered for responsive handling and dependable performance. The BR2100 integrates refined helm controls, essential instrumentation and proven marine systems for confident navigation. Paired with a powerful 150Hp Suzuki engine and responsive Gussi Italia Steering, that delivers smooth and efficient handling.

Precision-engineered for confident handling and fluid operation, the Suzuki throttle control delivers precise acceleration and intuitive handling, giving the captain confident control across every journey on the water.

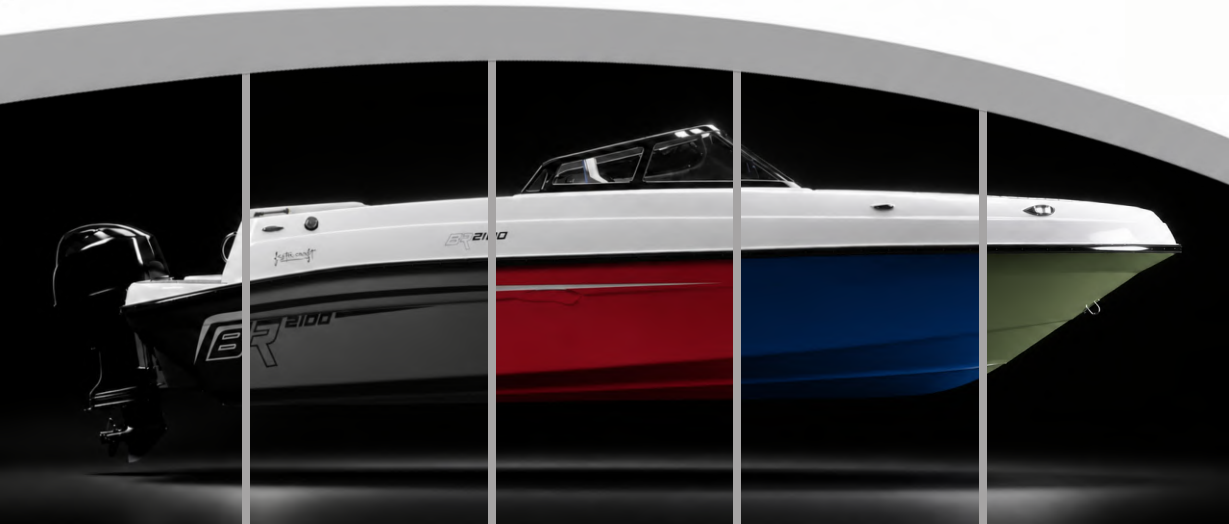

Designed for simple and reliable operation, the switch panel provides intuitive control of essential onboard systems, including lighting, the freshwater pump, and marine horn, placing everyday functionality within easy reach.

The customisable switch panel integrates accessory controls, USB charging ports, and a volt meter, while allowing tailored configuration for a variety of onboard accessories, keeping essential systems intuitive, accessible, and seamlessly connected.

Color Options

The BR2100 is available in a curated range of signature hull colours, allowing owners to personalise their vessel with a finish that reflects individual style and character.

Nado Grey

A refined expression of contemporary marine luxury, Nado Grey pairs understated elegance with a clean, architectural presence on water. Sophisticated and timeless, it is crafted for owners who appreciate modern design with quiet confidence.

Signal Red

Bold yet refined, Signal Red brings dynamic energy to the BR2100's contemporary silhouette. Designed to command attention with confidence, it captures the spirit of a performance-driven experience and unforgettable moments on open water.

Navy Green

Deep and understated, Navy Green reflects a refined connection to nature and open water. Its rich tonal character brings a sophisticated presence to the BR2100, blending contemporary luxury with a spirit of exploration.

Royal Blue

Inspired by the depth of freedom, Royal Blue delivers a bold yet sophisticated presence. Its rich finish enhances the BR2100's sleek profile with timeless elegance and confidence.

Jet Black

Striking and uncompromising, Jet Black delivers a commanding presence with modern sophistication. Its deep, reflective finish accentuates the BR2100's sleek lines, creating a timeless expression of luxury.

Lighting

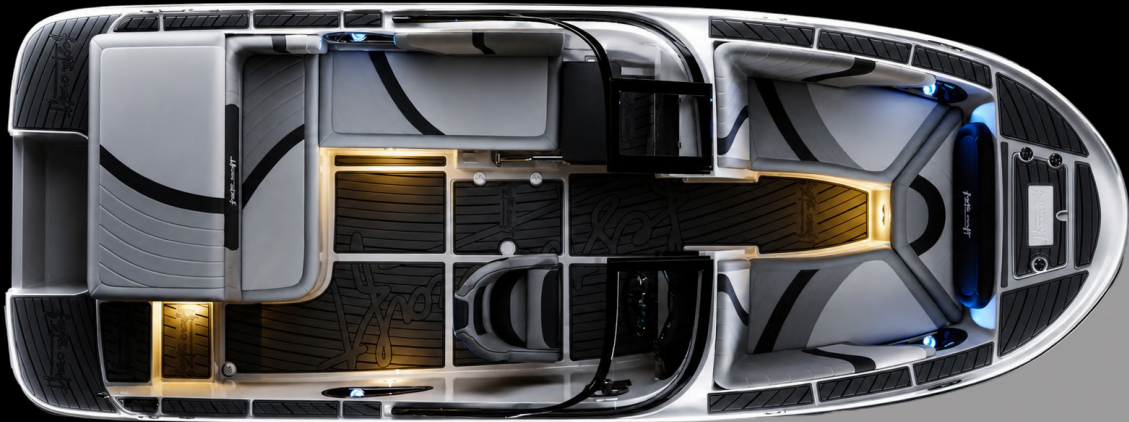

As daylight fades, the BR2100 reveals a more atmospheric character.

Warm ambient deck lighting, blue illuminated dugout cup holders, navigation lights, anchor light, and underwater lighting work together to create a refined nighttime presence, designed for elegant cruising, effortless visibility, and unforgettable evenings.

Ambient Deck Lights

Subtle ambient illumination enhances visibility while creating a sophisticated onboard environment designed for evening cruising and elegant social moments.

Underwater Lights

Integrated underwater lighting adds atmosphere and visual depth, enhancing the vessel's presence and creating a distinctive experience after sunset.

Integrated 3-Element Dugout

Thoughtfully designed for comfort and convenience, the four integrated 3-element dugouts combine a secure grab handle, illuminated cupholder, and built-in speaker connected to the helm music system, bringing functionality and atmosphere together in one refined detail.

Anchor Light

Designed for safe and confident anchorage after sunset, the anchor light enhances visibility while preserving the BR2100's refined presence, supporting peaceful evenings.

Navigation Lights

Engineered for visibility and safety, the integrated Red & Green navigation lights support confident operation in low-light conditions while preserving the BR2100's refined design.

Accessories

Refined additions, elevated experience.

Premium accessories designed to enhance functionality, protection, and style.

Available on order

EVA Flooring

Premium EVA flooring delivers secure footing, comfort underfoot, and a contemporary finish engineered to withstand demanding marine conditions.

Fenders

Protect the vessel during docking and mooring. The marine fenders provide dependable cushioning while preserving the refined finish of the hull.

Anchor

Essential for controlled mooring and peace of mind, the anchor system is designed to support stable positioning across a variety of coastal conditions.

Boat Cover

Tailored for protection, the boat cover helps shield the vessel from weather, dust, and environmental exposure, preserving its finish and onboard materials.

Trailer

Engineered for secure transport and practical ownership, the boat trailer enables confident towing, convenient storage, and the freedom to explore new destinations with ease.

Bimini Top

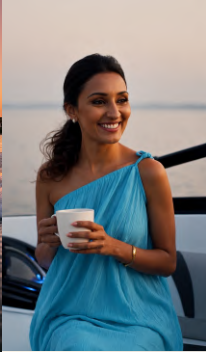

Designed for greater comfort under changing conditions, the optional Bimini top or Canopy provides elegant shade and weather protection while preserving the BR2100's clean and contemporary profile.

Tugger Bar

The optional tugger bar adds both functionality and visual presence, supporting canopy integration and mounting surface for additional speakers or lights while complementing the BR2100's contemporary profile.
